PROFILE

Fourth-year BSc (Hons) Cloud Computing student with a Bc. in Computing and a strong focus on networking and cloud technologies. Experienced with network solutions, troubleshooting and problem-solving, supported by voluntary mentoring and leadership experience. Seeking an IT role where I can apply my networking and cloud skills, and contribute to a team.

WORK EXPERIENCE

Brand Ambassador

Raiffeisen Bank, Bratislava / August 2023 - September 2023

- Developed and managed engaging brand marketing campaigns and events.
- Built relationships with customers to enhance brand loyalty and awareness.
- Conducted market research to identify new opportunities for brand growth.

CoderDojo Mentor

Dundalk Institute of Technology, Dundalk / April 2023 - September 2024

- Led the tutoring of enthusiastic children aged 9-15 in programming to enhance their unique skillset.
- Utilising the Scratch IDE and Python to make coding accessible and engaging for students
- Developed curriculum for students and guided them through the material and advised their mistakes
- Encouraged students to create and experiment with projects using their own skill set. Tutored them in problem solving and critical thinking to build a solid foundation in coding for their following studies

EDUCATION

BSc in Computing - Network Stream

Dundalk Institute of Technology, Dundalk / September 2022 - June 2025

- Specialised in designing, configuring and securing virtualised and cloud-based environments, with a strong focus on network technologies, problem-solving and IT service desk operations.
- Gained practical skills in network design, deployment and administration, as well as securing systems and services in modern enterprise networks.
- The stream also provides strong preparation for the **Cisco CCNA** certification.

BSc (Honours) in Cloud Computing

TU Dublin, Dublin / September 2025 - June 2026

- Focused on **designing, deploying and operating modern cloud solutions**.
- Combines core computing (cloud computing, operating systems, networking) with specialist modules in **public cloud, DevOps, security, big data and IT service management**.
- Teaching aligned with **AWS and Microsoft Azure**, delivered by staff involved in **WorldSkills Cloud Computing** and the **AWS Academy** advisory community.
